## SUMMARY

I am a Software Engineering student from the class 2023 at Telkom University Surabaya. Over the past two semesters, I have studied various key areas of software development, including databases, programming algorithms, and web development. Currently, I am focusing on becoming a Full-Stack Developer, with a strong desire to master frontend, backend, and database management. I am always eager to learn new things and deepen my technical skills in the tech world

---

## EXPERIENCE

### **Freelance Web Developer**

**Sembrani Travel**

**Surabaya, Indonesia | 07/2024 - 08/2024**

- Created Travel Website (Sembrani Tour & Travel) Using HTML, CSS, JavaScript and Bootstrap. This web can also be used on mobile
- The web is only static and there is no database. When a customer is about to order a ticket, the customer will be directed to WhatsApp and there will be a special message to order the service.
